

Finding cases citing legislation

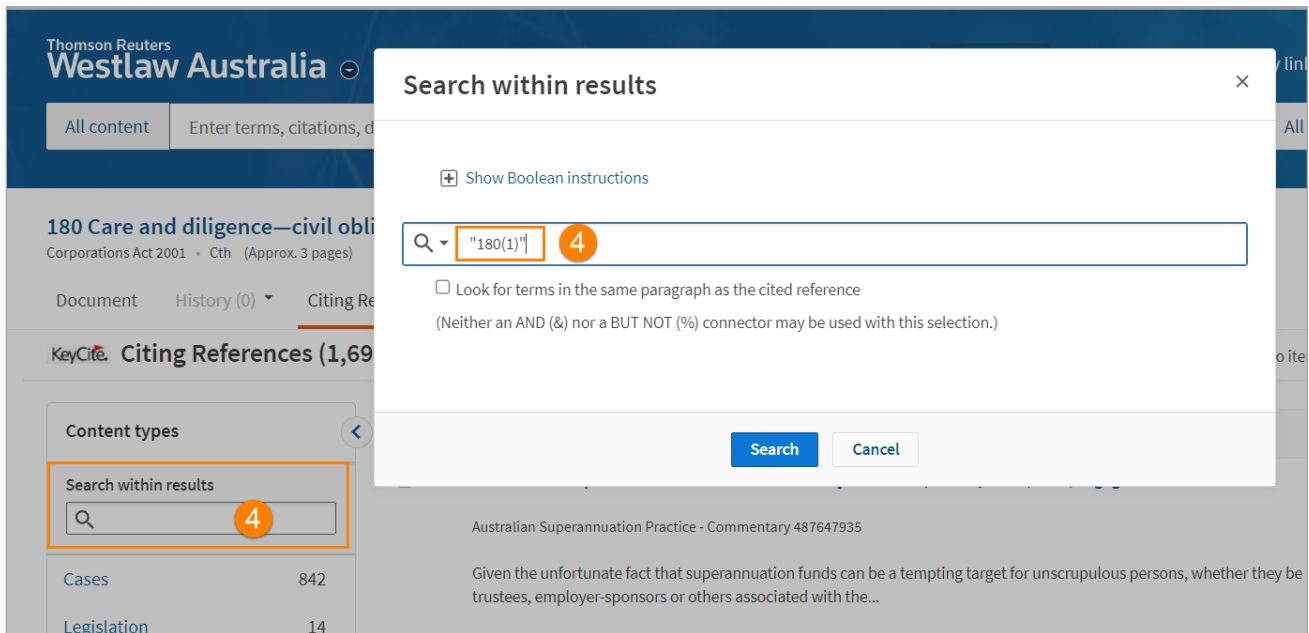

You can quickly find cases citing legislation or a provision using the legislation collection.

Cases citing legislative provision (section or rule)

1. In the global search bar type the legislation title followed by the provision number.
2. Click on the legislative suggestion, to go to the legislation text in the legislation collection.

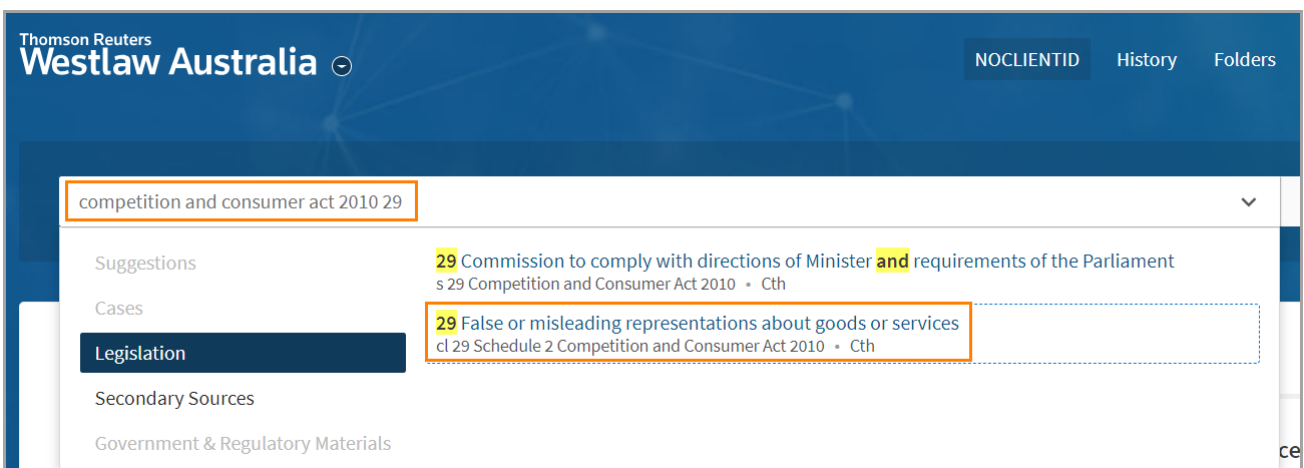

3. Click on the Citing References tab and select Cases.

- To refine results to find cases considering a subsection, click in the Search within results, type the subsection details in quotation marks and press Search.

Cases citing a section of the Australian Consumer Law

Use the same process, but search using the Competition and Consumer Act 2010.
