

Consolidating multiple alerts into a newsletter

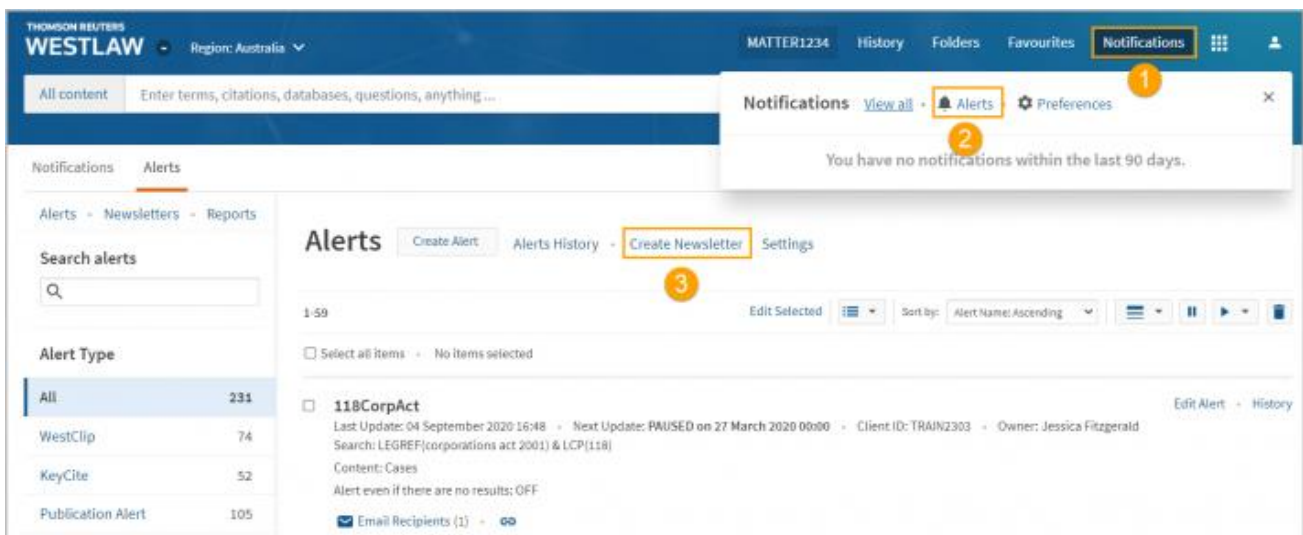

Create newsletters to combine multiple alerts into one email.

Administrator settings

If you are setting up alerts or newsletters as part of a current awareness service, we recommend that you set up all library/knowledge staff as Administrators, so that they all can amend or set up alerts created by another Administrator. Email the Tech Care team techcare.anz@tr.com with the names and email addresses of users to be set up as Administrators.

Creating a newsletter after you have created the component alerts

1. In the top menu, click on **Notifications**.
2. Select **Alerts**.
3. Click **Create Newsletter**.

4. If you have Administrator privileges, set the owner as Administrator.
 - a. Add a name for your newsletter and click **Continue**.

7. Schedule the newsletter's frequency, time, and individual alert delivery.
 - a. Change the frequency to daily, weekdays, weekly, fortnightly or monthly. Choose whether to send the Newsletter and/or alerts if there are no results.
 - b. Select the time zone and time(s) you want the Newsletter to be sent.
 - c. Individual alerts included in the Newsletter are set to deliver via email, the delivery will cease when the alert is added to the Newsletter.
To continue receiving separate email delivery of alerts, tick the checkbox.
