

## Legislation Locater

This table identifies where legislation is reproduced, in full or in extract form, across the range of Thomson Reuters law subscription publications. It also indicates whether the legislation there is annotated or not, and whether separate commentary appears. Use of the table cuts research time by identifying related content in other works, eliminating the need to consult a range of publications individually.

Key to abbreviations used in the table:

Full	means the legislation is reproduced in full in the publication indicated
Ext	means that extracts only of the legislation are reproduced
Annot	means that the legislation includes authored annotations
Comm	means that elsewhere in the publication there is commentary that refers to the legislation

Table updated 25 August 2016.
