

The integration between Westlaw and LEAP has been enhanced to provide a more streamlined user experience. The changes will reduce the number of steps and clicks that you will need to go through in Westlaw. If you subscribe to both Westlaw and LEAP, you will see the below changes from the 8th of August.

1. When you access Westlaw from a LEAP matter ID within the LEAP application, Westlaw will no longer utilise commercial browsers (i.e., Chrome, Edge, Safari and more) and open within the LEAP browser. From the Westlaw homepage onwards the matter ID will appear on the top of the LEAP browser.

- OLD

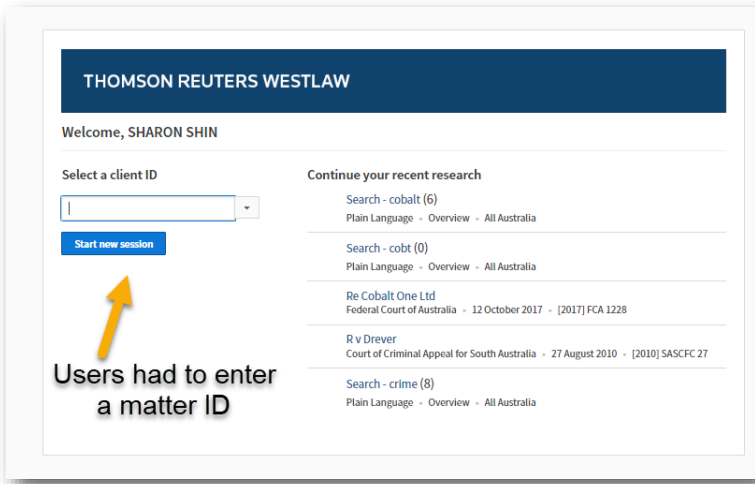

- New

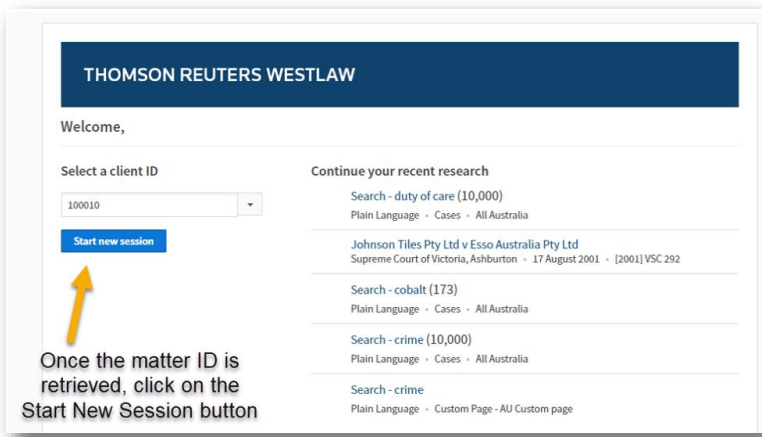

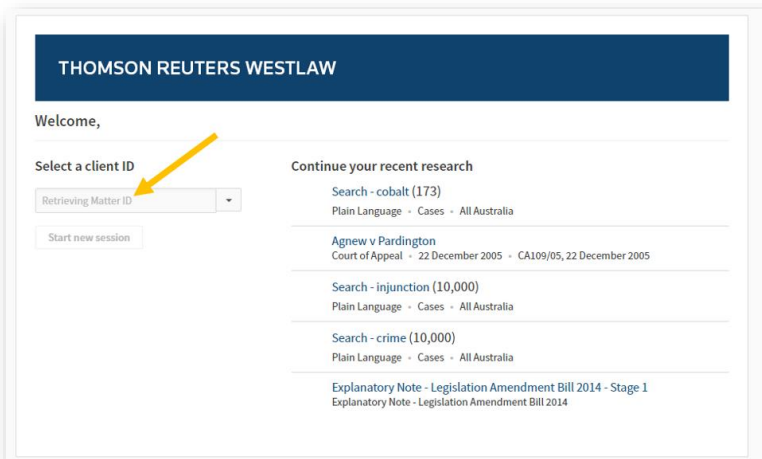

2. In the client ID page, you will no longer need to enter your matter ID manually. Westlaw will take a few seconds to retrieve the LEAP matter ID and auto-populate it in the client ID field.

- Old

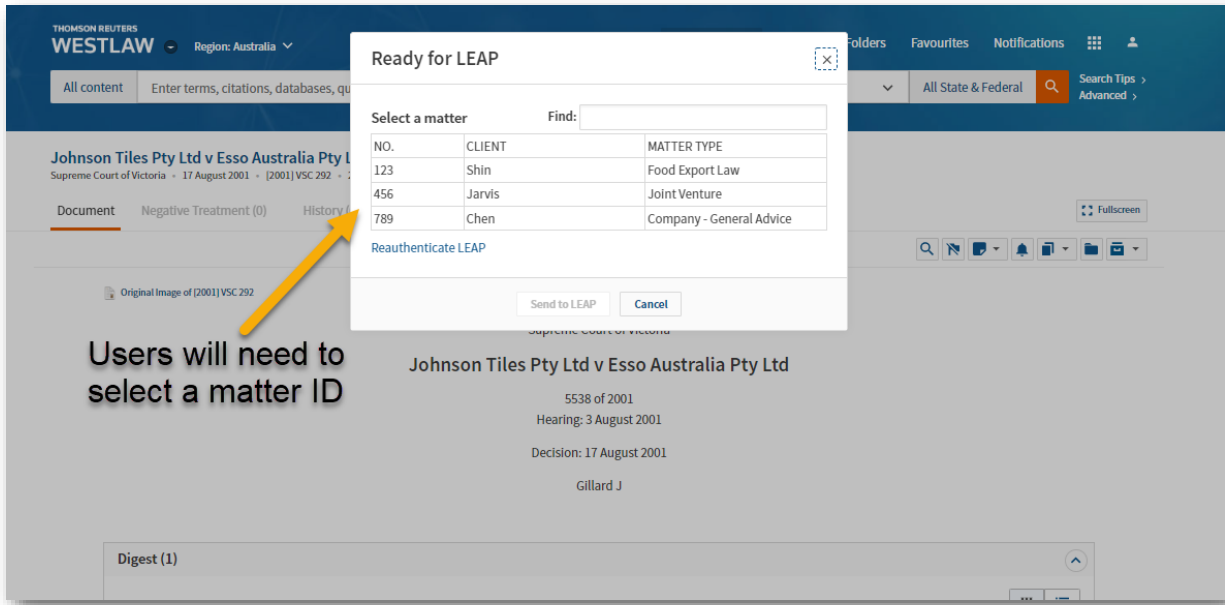

- New

Once the matter ID is retrieved, click on the Start New Session button

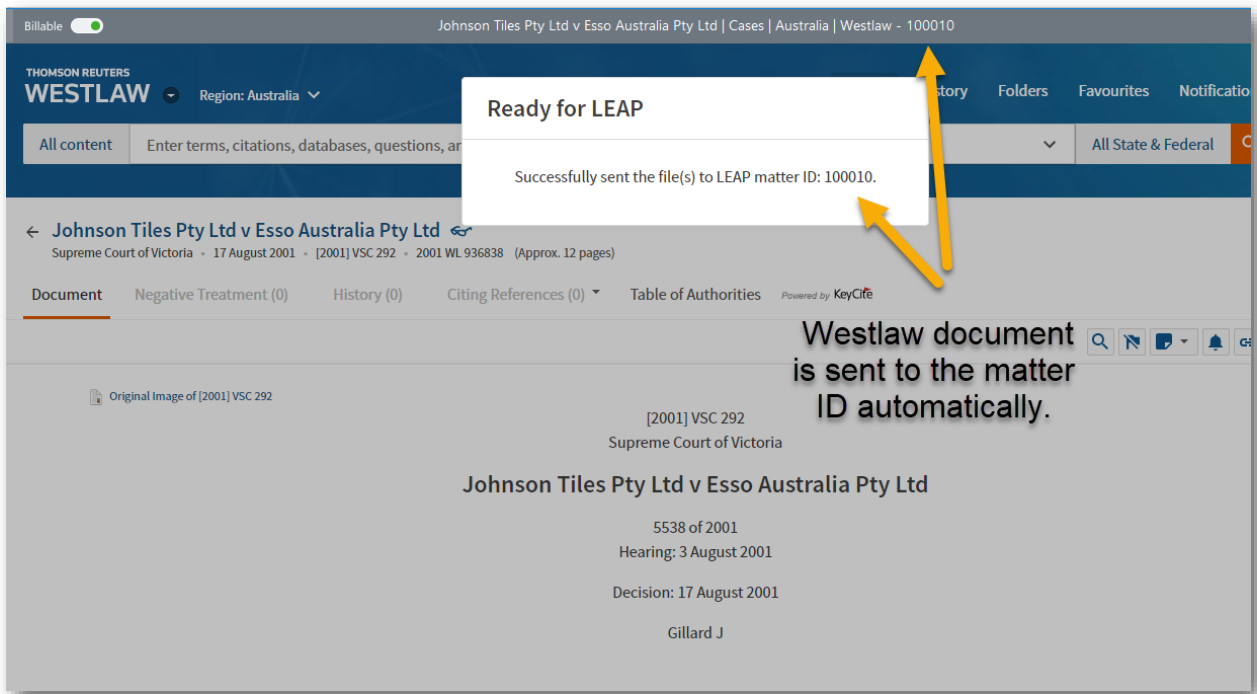

3. Previously you had to select a matter ID before sending a Westlaw document to LEAP, however Westlaw will now automatically send the document to the matter ID that you have started from.

- Old

Users will need to select a matter ID

- New

Westlaw document is sent to the matter ID automatically.
