

### Finding cases judicially considering a word or phrase

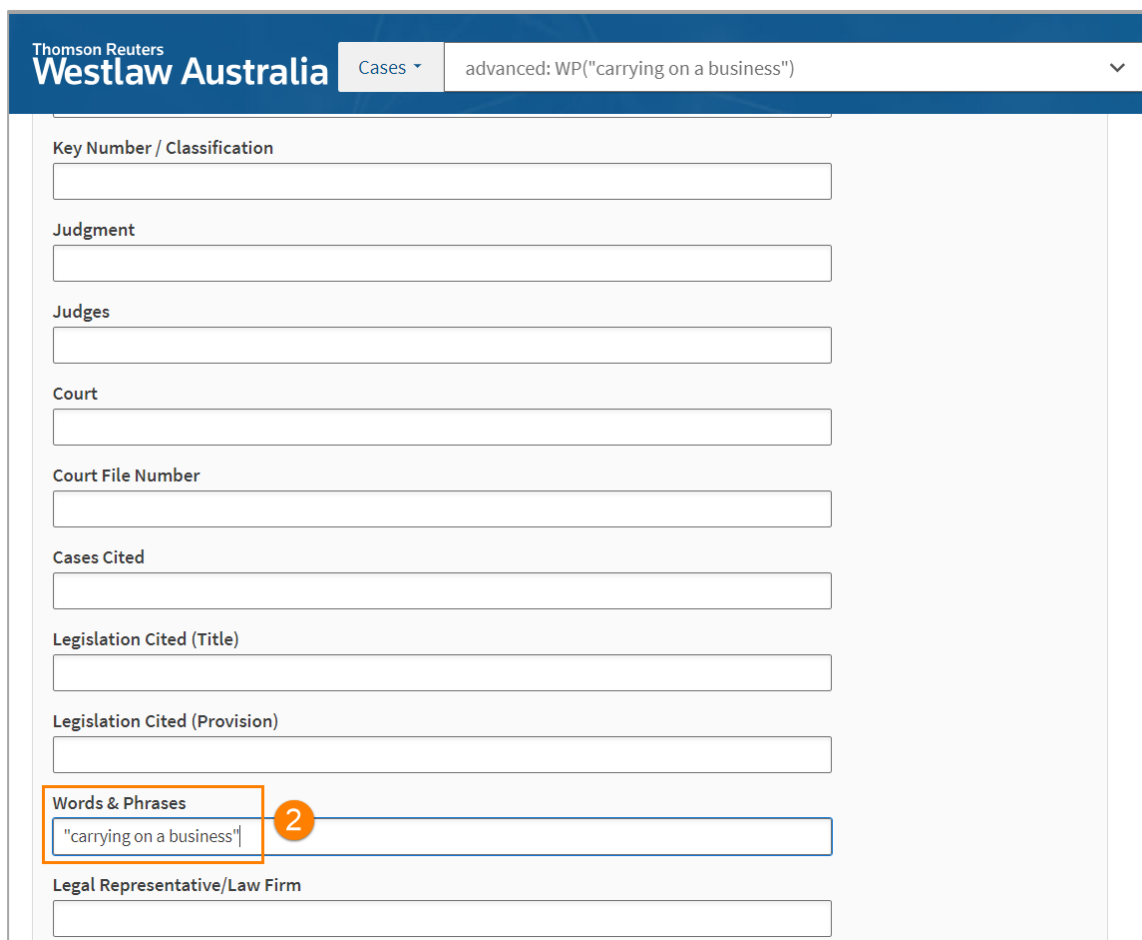

You can quickly find cases where the judge considers the meaning of a word or phrase, using the Cases Advanced search template.

1. On the homepage, select **All Cases** and then click the **Advanced** link to the right of the search bar.

To the right of the search bar, there is a dropdown menu set to "All State & Federal" and a search icon. Further right, there are links for "Search Tips" and "Advanced" (highlighted with a red circle and the number 1). Below the search bar, there is a navigation menu with tabs for "Content types", "Practice areas", "International", "My content", and "Tools". Under the "Content types" tab, there are three columns of links: "Cases" (with "All Cases" highlighted by a red circle and the number 1), "Legislation" (with "All Legislation" and "Federal" links), and "Secondary Sources" (with "All Secondary Sources" and "Commentary" links).

2. Scroll down to the **Words and Phrases** field and type your search terms. If you are looking for a phrase, use quotation marks to search for the phrase and not the individual words.
